CORPORATE PROFILE

Introduction:

Adla Consulting Inc. is a Canadian Mining Consultancy Company, established in 2005. We provide guidance and support to the mining industry at various stages of their projects, from appraisals, exploration, development, and operations to closure. Our specialized services in areas like mine planning, Feasibility studies, environmental management, and risk assessment. Our state-of-the-art facility, with a 30th Years of Experience with Skill Professionals, specializes in smart mining solutions, providing services in Geology, Engineering, and Geotechnical advice and advisory services. Our Services across the entire mining services with the help of highly qualified engineers, chemists & geologists are focused on providing cutting-edge best value solutions in terms of high-quality services to fulfill all QHSE Parameters used in the mining industry.

We are a Trading Company Supplying Industrial Equipment and Chemical Products and Engineering and Geological Services to the Oil and Gas Industry. Our products and services cover the entire spectrum of the up-stream (drilling, production and stimulation), mid-stream (pipelines) and down-stream (refineries and petrochemical) petroleum industry.

Our highly-qualified and well experienced Engineers, Chemists and Geologists have primary focus to provide cutting edge best value solutions to fulfill all high standard quality parameters of products and services used in the oil and gas industry. Our suppliers have a long track record of very high standard application solutions with stocking and distribution.

Portfolio:

Regarding our track record in Pakistan, we are a Registered Supplier to a Large Crude Oil Refinery with Capacity of more than 100,000 bbl per day and a Cross-Country Pipeline Network spanning more than 2000 kms. For this account, we provide products such as Di- Methyl Di-Sulfide (DMDS) for Operating Units and Solutions for Pipeline Integrity Management such as Corrosion Inhibitors, Drag Reducing Agents and Chemical Injection Pump Skids as well as Bulk Piping Material and other Industrial Equipment and Chemical Products. We are also involved in Front End Engineering Design (FEED) for a New Crude Oil Refinery that will serve as the Largest Refinery in the country.

We are also a Registered Supplier to a large Oil and Gas Exploration & Production (E&P) Company in Pakistan. For this account, we provide Products such as Piping Material and Fittings, Pumps, Valves, Gaskets and other Industrial Equipment and Chemicals apart from providing Wellsite Geological Services for their Drilling Programs.

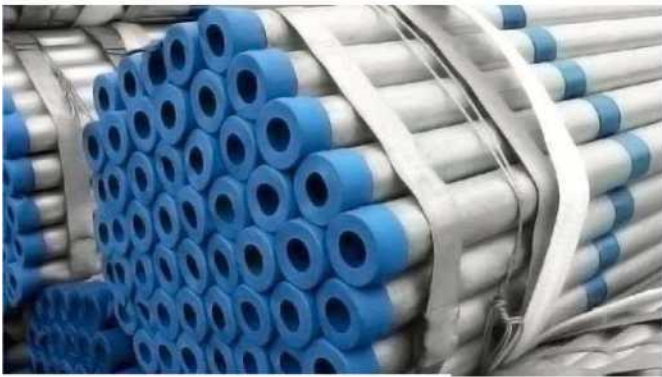

Further, one of our business units deals with Mining and Supply of Barite.

ADLA CONSULTING INC.

The name you can trust for Quality

Mechanical Equipment:

- Piping Material and Fittings
- Valves (Gate Valves, Ball Valves etc.)
- Circulation Pumps
- DRA Injection Pump Skids

ADLA CONSULTING INC.

ADLA CONSULTING INC.

The name you can trust for Quality

Chemical Products:

Refinery Chemicals

- Sulfidising Agent (DMDS)
- Corrosion Inhibitor
- Drag Reducing Agent (DRA)
- Lubricity Additives
- Bactericides
- PH controllers
- Defoamers
- Amines (Cyclohexylamines)
- Demulsifiers

Drilling chemicals

- Oil Based Mud
- Water Based Mud
- Green Oil Based Mud

Bulk Supplies:

Barite, Earth Material, Finished Marble, Agglomerate Quartz Marble

ADLA CONSULTING INC.

The name you can trust for Quality

OUR SERVICES:

Pipeline Integrity Services

- Corrosion Inhibitor Systems
- Drag Reducing Agent (DRA) Systems
- Lubricity Additives

Project Engineering Services

- Front End Engineering Design (FEED)
- Detailed Engineering Design - Piping, Civil and Structural
- Supervision and Project Installation Work with Project Management

Geological Services

- Well-Site Geological Services (Well-Site Sample Handling Services)
- Geological Lab Services (Biostratigraphy, Core Analysis, TS Petrography, Core Description)

Mining

- Antimony Mines in Pakistan

WORK PERFORMANCE AND CLIENTS:

Upstream Petroleum Industry

- Pakistan Petroleum Limited (PPL)
- Eni Pakistan Limited
- Nexen, Canada
- CNRL, Canada
- ConocoPhillips, U.S
- Cenovus, Canada

Midstream and Downstream Petroleum Industry

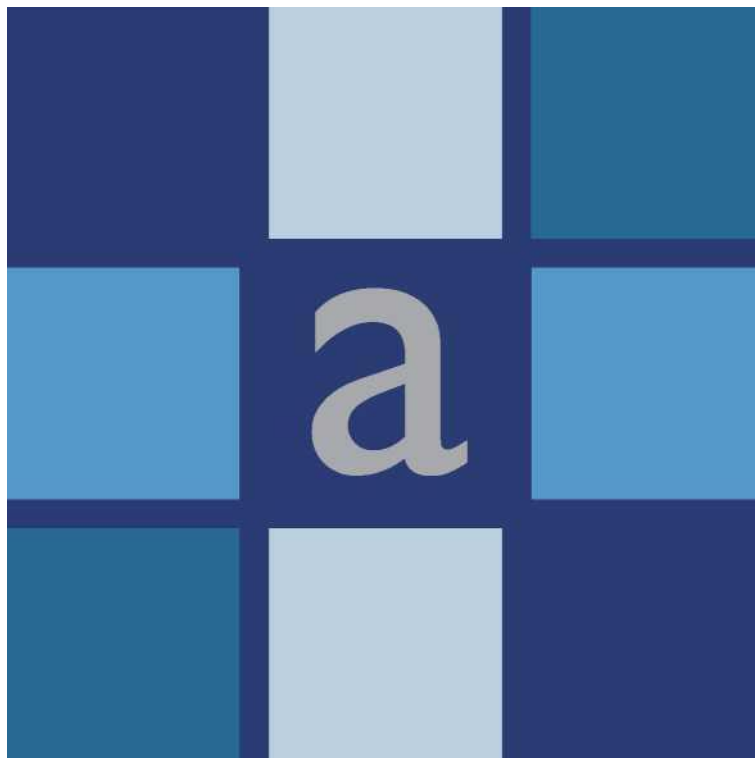

- Pak-Arab Refinery Limited (PARCO) / Pak-Arab Pipeline Company Limited (PAPCO)
- National Refinery Limited (NRL)
- Sui Southern Gas Company (SSGC)
- Interstate Gas System Co. (ISGS)
- Alliance pipeline, Canada
- Khrono Inc.
- Asel-tech, Italy
- Corr science Inc., Canada
- Schneider Electric

SUPPLY PARTNERS - OIL AND GAS CHEMICALS AND MINING:

- New Park Drilling Fluids, USA
- Qmax, Canada
- Global AX-TX, USA
- Prairie Mud Services, Canada
- Bolan Mining Enterprises, Pakistan
- Saboman Barite, China
- MCC Chemicals, USA
- Puyang Jiahua Chemicals Co., China
- Oil Flux Americas

ADLA CONSULTING INC. OFFICES:

ADLA Consulting Inc.
Headquartered in Calgary, Canada
Regional Office in Karachi, Pakistan.
Representatives in USA, UAE and China.
