

ADLA CONSULTING INC.

The name you can trust for Quality

www.adlaconsultinginc.com

Canadian Project Management Corporation (CPMC)

Canadian Project Management Corporation (CPMC) is an affiliated organization of ADLA Consulting Inc. It is structured to provide excellence in Project Management and Engineering, Procurement and Construction (EPC) Services.

As a part of ADLA Consulting, CPMC is the body responsible for the management and execution of projects. CPMC provides overall project management and engineering coordination of participants, QA/QC, compliance and the basic engineering packages of the technology licensors and non-licensed process units, technology providers, U&O and ISBL facilities in a timely and seamless manner.

CPMC has an experienced project management team and utilizes PM tools and systems to successfully execute every phase of the project. CPMC uses an integrated project management comprised of client and PMC representatives to achieve success.

CPMC also makes use of the Internet of Everything (IoE) concept and features that extends the emphasis on machine-to-machine (M2M) communications among various project offices, cloud based document controls and transfers, gated review processes and reporting to identify issues as early as possible and initiate corrective measures. These are proven methodologies used in other workshare programs of major global and regional projects.

We offer most cost effective engineering solutions for every phase of EPC.

Integrity: Excellence in Project Execution:

- Safety • Efficiency in Design
- Environment • Global Expertise
- Accountable and Transparent • Robust and flexible processes
- Ethics and Trust • Strategic Partners
- Respect • Cost Conscious and Cost Effective

Client Focus: Social Commitment:

- Thought Leaders • Community Engagement
- Relationship Based • Cultural Sensitivity
- Tailored Solutions • Balanced Economy and Ecosystems

At CPMC, we have a comprehensive Quality Management System (QMS) in digitized environment applicable to large projects. It has been structured to achieve excellence in project execution and delivery. The QMS is ISO compliant and flexible enough to be adapted to large projects. These systems allows us to align with both PMC and our client's requirements and business objectives.

CPMC has taken a lean approach to management; however, the gains in quality and savings to our clients are realized with the right processes and procedures. CPMC has implemented a QMS which has interrelated processes that function as one system.

TEAM MEMBERS:

Mr. Tanju Cetiner has more than 30 years of experience in consulting engineering and project management totaling up to \$20.6+ billion Capex in hydrocarbons; oil refining, oil sands, upgrading, gas processing, LNG and synthesis gas chemicals. He specializes in Process Analysis, Optimization and Development. He is a member of APEGGA, APEGBC, PEO, AIChE, SPE, NFPA and CHOA.
